

Qualify tenants with Birchwood's Quick App™ Tenant Screening solution.

It's quick. It's easy. And it mitigates your risk of liability and exposure to identity theft and discrimination lawsuits.

ADVANTAGES OF THE Quick App™ online background check application process include:

- Collect applications online - 24/7.
- Reduce errors, save time, and minimize costs by avoiding order-entry errors. No more transcribing and duplicating order-entry of applicant data.
- Maintain legal compliance with FCRA mandated background check disclosures and authorization/release forms.
- The applicant's online background check application is seamlessly uploaded in real-time for processing in our system
- The option to have applicants pay for their own background check with a credit card.
- The completed application and electronic consent for background check can be viewed and printed from within the Quick App™ program.
- Reduce liability and exposure to age discrimination lawsuits and identity theft by "outsourcing" the collection of sensitive personal identifiers (including DOB and SSN) to their background check provider.
